Probability	Residence	Season
The frequency with which the species has been recorded under the full protocol methodology of SABAP2. However where there have been no sightings under full protocol counts but have been recordings under ad hoc protocols or as 'incidentals' these are shown as 1% for completeness.	Roberts' status as under: 1 Resident 2 Breeding migratory 2.1 Palaearctic 2.2 Intra African 3 Non-breeding migratory 3.1 Palaearctic 3.2 Intra African 3.3 Various	The months in which the species are likely to be found in the Conservancy
	Palaearctic consists of North Africa and all of Eurasia (with the exception of the southern Arabian Peninsula)
